

CLAIMS

I claim:

1. A mixing sheet, comprising:

a flat, pliable sheet; and,

a plurality of handles, each handle fixably attached to the outer perimeter of the sheet.
2. The mixing sheet of claim 1, wherein the handles are manufactured from high-density polyethylene.
3. The mixing sheet of claim 1, wherein the handles are manufactured from wood.
4. The mixing sheet of claim 1, wherein the handles are manufactured from rope.
5. The mixing sheet of claim 1, wherein the handles are manufactured from composite.
6. A mixing sheet, comprising:

a flat, pliable sheet; and,

means for gripping the sheet during mixing operations.
7. The mixing sheet of claim 3, further comprising means for attaching the handle the means for gripping to the sheet.
8. The mixing sheet of claim 1, wherein the thickness of the sheet is between 5 and 10 mils.
